

# Fall Looks We're Head Over Heels For

Fall is here – finally! – and with it, tons of new fall trends and fashions. I'm sharing five of my favorite looks below – things I've seen on runways and stores. I'm betting if you look around, you'll see them, too.

The warm **rose gold** hues really make the gemstones pop. Rose gold continues to be a huge trend for us. [These earrings](#) are great because you can add in any color combinations.

**Bypass** is a trend we are seeing in fashion jewelry as well as bridal. [This bypass ring](#) is simple but makes such a statement.

Much like the rose gold trend, we have seen increased sales in our **yellow gold**. [I love this piece](#), it's a unique take on our ever so popular bar necklace. It's perfect to wear alone or layer.

**Multi-gemstone and 2 stone rings** have been extremely popular this year. I love how [this look](#) incorporates the multi-stone trend with the bypass style. It's really a statement piece.

Adore [this stackable ring](#). It looks good stacked with a diamond or gemstone ring, or even by itself. It has a great price!
