

Lab-Grown Luxury Turns Heads in the Fashion World

The sparkle of lab-grown diamonds by 302® Fine Jewelry has caught the eye of some of the most important influencers in the fashion industry. [Bezel-set graduated drop earrings](#) from the 302® Fine Jewelry x Modern Brilliance® collaboration are featured this month in ELLE and Harpers BAZAAR magazines. The stunning earrings feature ten lab-grown diamonds each and were first noticed by the team at Marie Claire late in 2020. This year, they are the definition of luxury that comes at an undeniable value.

Emily Graffagnino, Stuller's Senior Director of Fine Jewelry,

says the excitement surrounding these earrings comes after years of work to re-define the 302 Fine Jewelry brand. The team aims to curate the designs to be easy for everyday wear, long lasting in quality, and provide an outlet for self expression.

Graffagnino says, "With 20 dazzling lab-grown diamonds, these earrings are elegant and dramatic and are the perfect show stopper for any occasion. She'll be sure to stand out no matter where she goes!"

Designed By Women For Women

The brand was re-launched last year with a renewed focus on helping women to wear their personality in the form of unique fine jewelry. The effort has been a major success for 302 Fine Jewelry partners.

Graffagnino goes on to say, “The bottom line is that fine jewelry makes everything look better- from your little black dress to your favorite t-shirt and jeans. When we work on the 302 Fine Jewelry designs, our primary goal is to make women feel beautiful and empowered. The designs are meant to complement the strong beautiful women who choose to wear them.”

The inspiration for these earrings can be described as ‘effortless elegance’. They transform any look with [eye-catching sparkle and an attractive price](#) point to match. They are shown in 14k white gold but are also available in 14k rose and yellow gold with friction backs included.

What is Modern Brilliance®?

The 302® Fine Jewelry x Modern Brilliance® collaboration is a curated selection of our top trending and essential lab-grown Diamond fine jewelry styles. These include earrings, necklaces, rings, and bracelets.
