

# Gemstones To Inspire Your Vacation Dreams – Let's Go!

Pack your bags, load your car, and hit the road to head to the airport, and let's take that much-needed time to de-stress and refresh. Let's pretend, however briefly, that these past 16 months reside in the distant past – barely a flicker in our memories. We'll make this summer trip particularly joyous and meaningful.

So let's talk about gemstones that will brighten your customer's vacay wardrobe, and afterward, summon memories of their wonderful time away. Select findings for a pendant, earrings, or bracelet danglers, choose family jewelry mountings to celebrate your holiday destination, or go the custom design route, and the sky's the limit.

## Beach Bliss

Atlantic, Pacific, Gulf Coast, Caribbean: Summertime and beaches are meant for each other. The lapping water or white-cap waves, the vast sky, breezes, tropical foliage, and the sand beneath my feet that always ends up in the condo – they put you back in touch with nature, serenity, and joy. You sigh and relax.

Customers can keep their beach bliss long after the vacation. Create eye-catching jewelry with water-inspired beauties such as turquoise, coral, aquamarine, green moissanite, and zircon, or paint a sunset with rose quartz, ametrine, tanzanite, and orange garnet. Keep the sand between your toes with rutilated quartz or citrine cabochons, our new brown moissanite, a top light brown, or champagne diamonds.

## Mountain Romance

Summer in the mountains offers stunning vistas and refreshingly cool days. Distant snow-caps, green fields with wildflowers, rushing streams, deep lakes, and tempting trails beckon you outside. You fill your days with biking, horseback riding, rock climbing hiking the surrounding heights, and photographing all that you see. Later in the day, relax with a soak in hot springs. All the activities and vivid beauty restore your spirits.

Customers can capture the thrill and freedom of their mountain

vacation with durable gemstones: sapphire, ruby, colored moissanite, emerald, aquamarine, morganite, topaz, and tourmaline. To explore the colors of mountain rock, go neutral with smoky or tourmalinated quartz. Or select our Misty, Ash, Marbled Gray, and black Specialty Diamonds.

## City Lights

Bring on the bright lights for your summer in the city vacation, be it New York, Washington DC, Nashville, St Louis, San Francisco, or L.A. You'll celebrate the arts with museums and performances and catch as much music as you can. That's not to mention all the fabulous restaurants and sights to see. Choose black and white wardrobe pieces, then highlight with pops of color and sparkle to add fun and fashion.

Choose Stuller Moissanite in DEF – go big in a larger size – or choose one of the gorgeous colored moissanite we offer: blue, green, yellow, brown, and black. Make a statement with fire opal, lab-grown sapphires in dazzling pink, yellow, and orange, bi-color tanzanite, and imperial topaz. All these and

many more will capture your city lights theme.
