

# The Perfect Jewelry For Our New “Virtual” Lives

There's no denying it – life is different than it was two years ago. No matter how much or little you've been affected by the Covid-19 pandemic, things have certainly changed in society. Adapting to a new norm means a lot of things, like more Zoom conference calls, online dates, virtual weddings, and so many other events that were once otherwise in-person assemblies.

While these types of virtual events are not new by any means, they are certainly more prevalent. When you're working from home, sometimes the highlight of your day is getting dressed up for a meeting with your boss. And with online dating more popular than ever, the little things like taking the perfect selfie for your profile could mean a world of difference for your confidence.

Whatever the case may be, we are a digital world now, and we need to make the best of it. And that's why I'm here to help. Take some advice from me, your favorite resident social media savant/Gen Z-er, and invigorate your socially-distanced looks with some of Stuller's trendiest jewelry!

# Virtual Happy Hour

In an effort to adapt to the times, virtual happy hour was invented (coincidentally, this is one of my favorite things to come out of the pandemic). It's nice to go all out with your favorite outfit and pour yourself a drink to toast your peers from a distance. Pair your look with sleek and sophisticated styles, like diamond ear climbers and intricate necklaces – the perfect pieces to wow your friends from the computer screen!

Much like the rest of the world, Stuller has turned to less in-person meetings and more online meetings. Even in marketing, we will tune in to a Microsoft Teams meeting with four other people sitting in the same room! Use this as an opportunity to flaunt some staple pieces like diamond studs and stackable rings.
